

THE MICHAEL J. FOX FOUNDATION
FOR PARKINSON'S RESEARCH

Parkinson's Disease Research Exchange (PDRx)

Wednesdays | 11:00 AM EST

MJFF's Parkinson's Disease Research Exchange (PDRx) is a weekly virtual consortium call that convenes scientists from academic labs, pharma/biotech companies, CROs, and more who are engaged in preclinical and/or clinical efforts within the PD field.

The weekly calls rotate between key themes within PD research. Members also have the opportunity to connect and collaborate on the PDRx member online platform.

Member Benefits

- + Collaboration and engagement with other PDRx members
- + Access to resources and virtual discussions on the member platform
- + Early knowledge of MJFF funding opportunities and information on MJFF-generated preclinical tools and resources
- + Help shape MJFF target strategic activities
- + Collaboration opportunities for translational biology studies

Objectives and Content

Assess and evaluate the current state of the field to identify and prioritize key challenges towards target understanding, translate findings to develop better therapies for Parkinson's disease, and solicit recommendations for potential solutions. Meetings occur virtually through the PDRx Member platform:

Announcements:

Funding Opportunities;
Requests for Information;
Workshops and Conferences

Presentations:

Overviews and Workshop-Style Discussions; Project Updates and Outcomes; Upcoming and Recent Publications; Industry Member Presentations; Guest Presentations

Joining and Participation

PDRx is a members-only consortium. All participants must sign a membership agreement. To request to join, please submit a completed request form: pdrx.michaeljfox.org/signup

Sample Call Themes

- + Synuclein
- + LRRK2
- + Parkin/PINK1
- + Inflammation
- + Circuitry
- + Special Presentations (PPMI, Open Science, Tools, Resources, etc.)
